Horse Browser and Horse Profiles

Find a horse, understand its record and continue into pedigree or advanced figure analysis.

Minimum plan	Free for Horse Browser and profiles; Advanced for Family Tree and EAPF horse sheets
Where to find it	**Horse Browser** in the application navigation

IN THIS GUIDE

- Find a horse
- Read the profile overview
- Inspect the race record and deeper splits
- Move to the right next tool
- A practical horse check
- Related guides

Find a horse

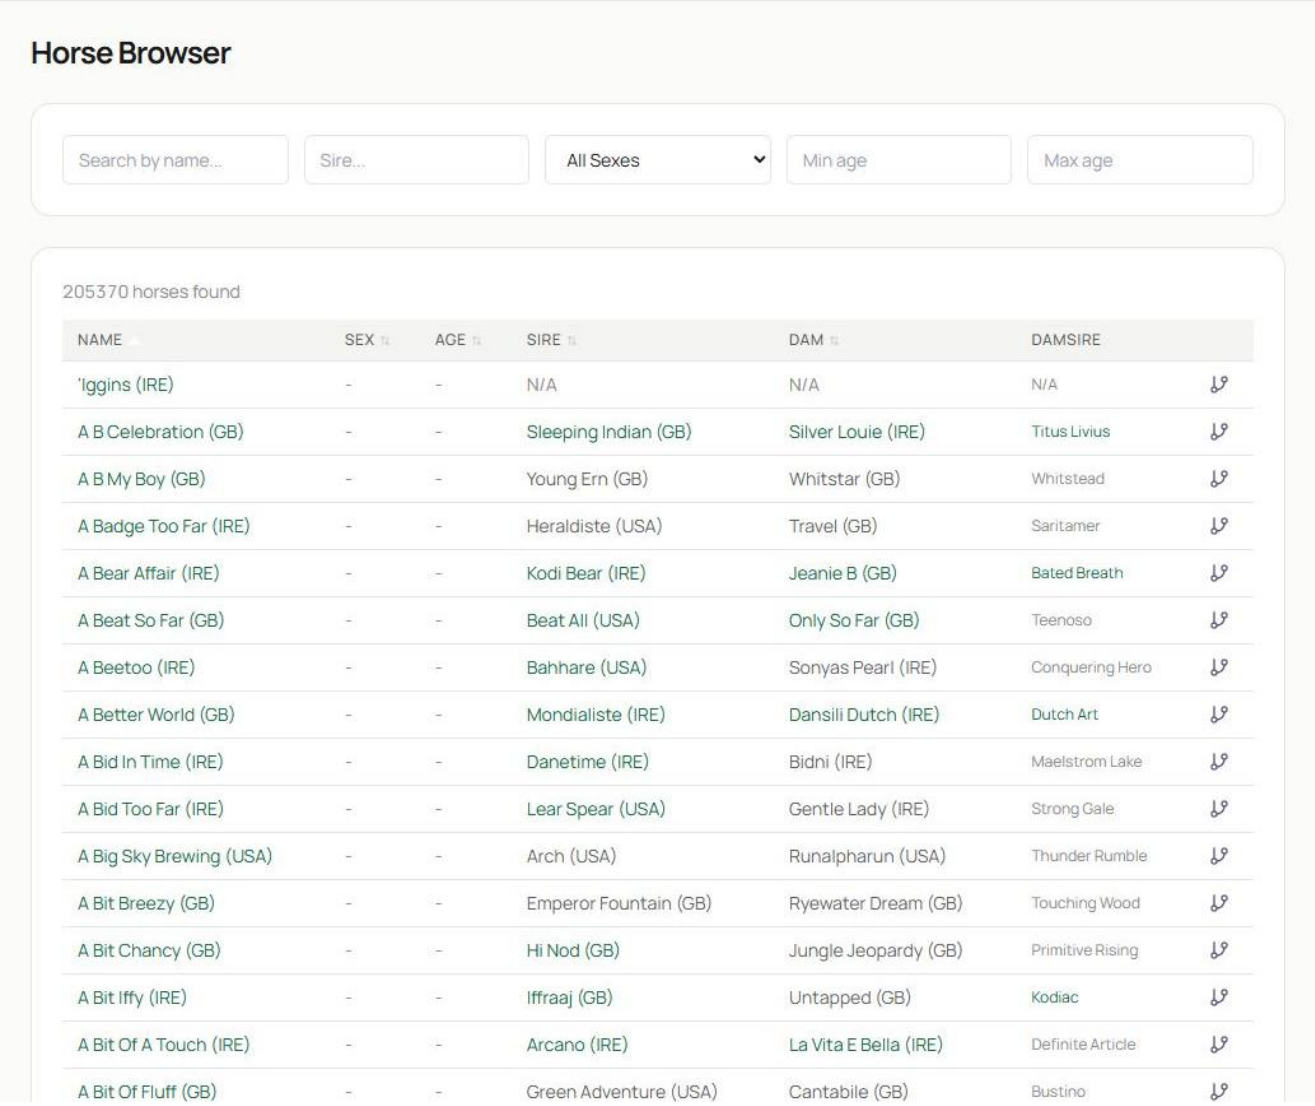

Figure 1. Horse Browser showing the search filters and horse-results table.

1. Search by horse name or sire, then narrow the list by sex and age if needed. Partial names are useful when spelling or country suffixes differ.
2. The table lists name, sex, age, sire, dam and damsire. Select a horse name to open its profile. The pedigree icon at the end of a row opens the family-tree route when your plan includes it.

Large result sets are paginated. Add a name or sire before moving through many pages. Country suffixes such as (GB), (IRE) and (USA) are part of the displayed identity and help distinguish similar names.

Read the profile overview

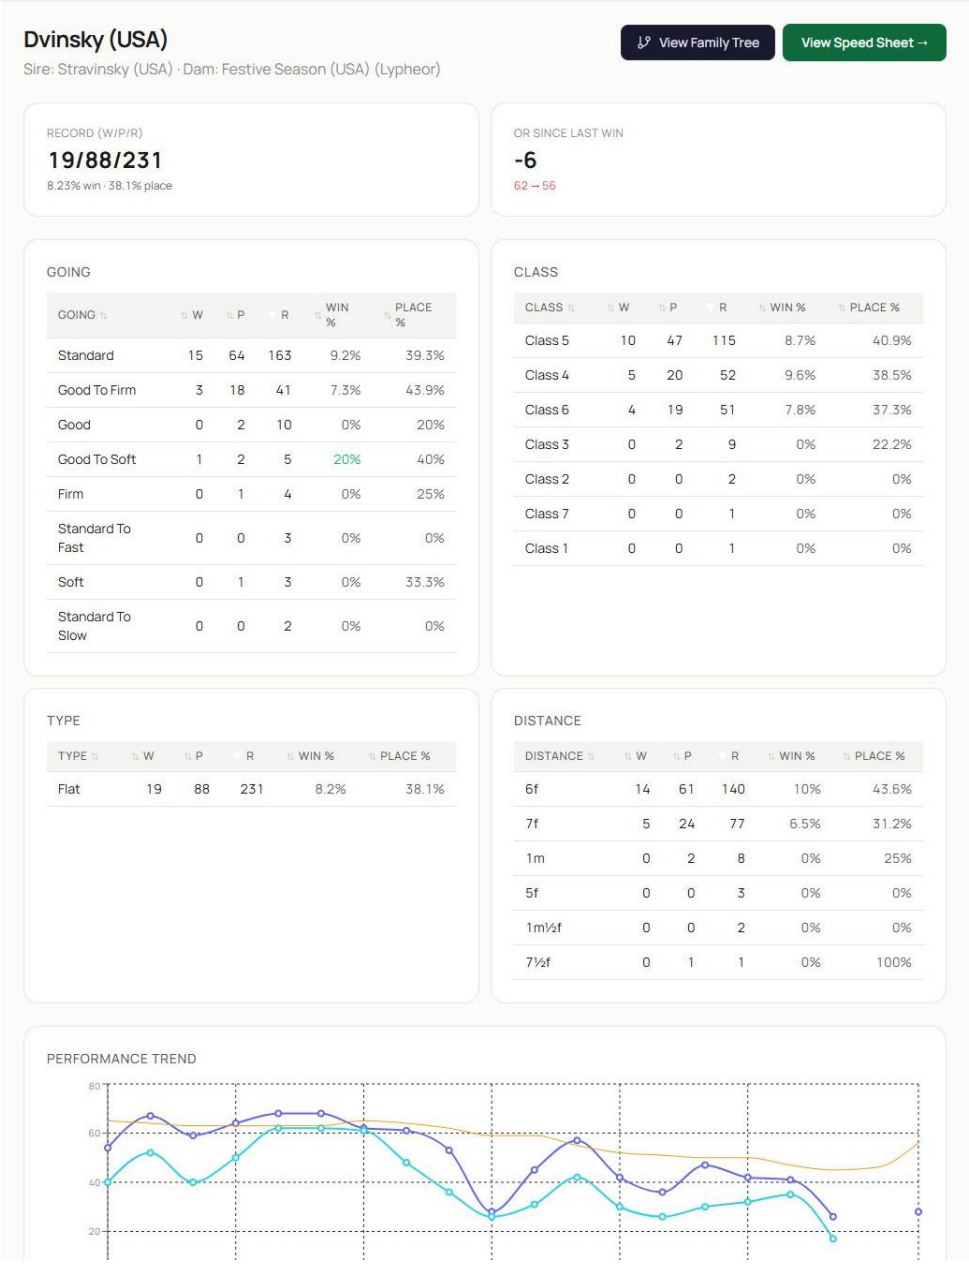

Figure 2. A horse profile showing identity, headline record, condition splits and performance trend.

1. The heading confirms the horse and its sire and dam. **View Family Tree** and **View Speed Sheet** lead to the advanced research surfaces.
2. Headline tiles summarise the win/place record and other available indicators. Read both counts and percentages; percentages without a useful number of runs can mislead.
3. Going and class tables show how the record changes across conditions. Other panels continue the same idea for race type and distance.
4. The performance trend plots ratings through time. Use it to identify improvement, decline and volatility. Ratings appear only where the source data is available.

Inspect the race record and deeper splits

RACE RECORD (20 RUNS)

DATE	COURSE	TYPE	CLASS	DIST	GOING	POS	BTN	OR	RPR	TS	SP	JOCKEY
2013-09-11	Kempton (AW)	Flat	Class 5	7f	Std	13	3.25	56	28	4	50/1	Jimmy Quinn
2013-07-18	Brighton	Flat	Class 6	7f	F	9	44	46	-	-	20/1	Jimmy Quinn
2013-06-07	Lingfield	Flat	Class 6	7f	GF	7	1	45	26	17	7/1	Jimmy Quinn
2013-05-07	Kempton (AW)	Flat	Class 6	7f	Std	3	6	47	41	35	16/1	Adam Kirby
2013-03-15	Wolverhampton (AW)	Flat	Class 6	7f	Std	7	0.75	50	42	32	25/1	Jimmy Quinn
2013-03-06	Kempton (AW)	Flat	Class 7	1m	Std	8	0.3	50	47	30	25/1	Tom McLaughlin
2013-02-14	Kempton (AW)	Flat	Class 6	7f	Std	12	1.25	51	36	26	16/1	Ian Mongan
2013-02-01	Lingfield (AW)	Flat	Class 6	6f	Std	9	0.5	52	42	30	12/1	Jimmy Quinn

2013-01-05	Lingfield (AW)	Flat	Class 6	6f	Std	10	2.75	59	28	26	25/1	Jimmy Quinn
2012-12-18	Lingfield (AW)	Flat	Class 5	6f	Std	8	0.75	62	53	36	6/1	Jimmy Quinn
2012-12-06	Lingfield (AW)	Flat	Class 6	7f	Std	5	1.5	64	61	48	14/1	Jimmy Quinn
2012-09-21	Wolverhampton (AW)	Flat	Class 6	7f	Std	9	0.5	65	62	61	16/1	Tom McLaughlin
2012-09-12	Kempton (AW)	Flat	Class 5	7f	Std	4	0.2	63	68	62	10/1	Tom McLaughlin
2012-09-06	Kempton (AW)	Flat	Class 5	6f	Std	2	1	63	68	62	12/1	Tom McLaughlin
2012-08-29	Wolverhampton (AW)	Flat	Class 6	7f	Std	3	3	63	64	50	20/1	Amir Quinn
2012-08-06	Kempton (AW)	Flat	Class 5	1m	Std	7	0.2	63	59	40	33/1	Richard Hughes
2012-07-25	Lingfield (AW)	Flat	Class 5	7f	Std	4	0.3	64	67	52	20/1	Tom McLaughlin
2012-07-11	Kempton (AW)	Flat	Class 5	7f	Std	8	1	65	54	40	12/1	Ryan Tate

Figure 3. The lower part of a horse profile showing the trend, recent race record and additional breakdowns.

1. Follow the trend into the period covered by the race record.
2. The race table gives the date, course, type, class, distance, going, position, beaten distance, official rating, performance figures, price and jockey where available. Select linked races or connections for more context.
3. Continue through the remaining breakdowns to test whether an apparent strength survives changes in course, trip, surface or class.

Avoid selecting only a horse's best split. A strong record may reflect easier races, a small sample or conditions that are not present today.

Move to the right next tool

- Choose **View Speed Sheet** to analyse EAPF history, cycle phase, running style and the component adjustments behind each figure.
- Choose **View Family Tree** to explore ancestors, descendants, family traits and inbreeding.
- Use **Compare** from the navigation to place this horse alongside likely rivals.
- Select a trainer or jockey link when the connection may explain a recent change.

A practical horse check

1. Confirm identity and pedigree.
2. Read the total record and sample size.
3. Match today's going, class, type and distance to the split tables.
4. Look for a stable or changing trend rather than one isolated high point.
5. Check the most recent comparable races.
6. Use the advanced sheet only after the basic race context is clear.
